

## New Products and Product Updates

### Snowload II Deluxe Beds

Now you can sleep surrounded by a majestic expanse of rich aspen wood. "Snowload" refers to the unique curved tree limbs that top the headboard and footboard. These Deluxe Beds have several upgraded design and construction features, including beefier 6-7" diameter corner posts, chunkier spindles, and a taller headboard that measures 62" high. The headboard makes a strong visual statement, even if you have a thick mattress and/or euro-style pillows. We incorporate sturdiness as well as beauty into these natural aspen creations; each bed has self-supporting rails and cross-slats to support your box spring and mattress. If you are searching for a peaceful, relaxing bedroom that transports you to that special forest, design your room around this Snowload II Deluxe bed.

### Cedar Chest

We improved this chest by adding a heavier-duty hinge. It holds the top in position when opened, and then lets the top gently glide down into the closed position. This heirloom-quality cedar-lined aspen chest is the ultimate in rustic storage for your fine clothing, bedding, or whatever needs to be conveniently stored. It's a beautiful and functional piece, whether at the foot of your Mountain Woods bed, or as a coffee table.

### Two-Foot Half Log Bench

These sturdy compact benches provide versatile seating options and can double as a side table.

The bench is created from a rugged cut aspen log, with four legs joined by mortise and tenon construction. The bench seating surface is sealed with three coats

of polyurethane to protect the wood. These smaller benches are an inexpensive addition to our popular line of half-log benches.

## Bistro Tables and Matching Barstools

Dining or entertaining in rustic style takes on a whole new dimension with our taller Bistro Tables. These new tables are offered in either four-foot or five-foot lengths, and 36" or 42" heights, to perfectly meet your needs. Our signature solid aspen top is kiln dried to a low moisture content and hand-finished with three coats of polyurethane for durable, family-friendly use. The table tops also feature the natural curved edge of the aspen log on both long sides. If you prefer a darker look, we offer any of our table sizes in our special "Bronze Aspen" finish.

Our 24" or 30" barstools with backs are the perfect accompaniment for our new table heights. These can be ordered with either solid wood seats or a variety of upholstered options. Our barstools are rock-solid with mortise and tenon construction with each tenon completely hidden, secured and pegged for maximum stability and longevity.

Even in our fast-paced world, Mountain Woods Furniture still utilizes old-world building techniques to produce top-quality furniture with elegant and functional designs. Because of the care we take in handcrafting our rustic log furniture, each piece comes with a lifetime warranty.
